**About CHPC**

The state created the California Housing Partnership more than 25 years ago as a private nonprofit organization with a public mission: to monitor, protect, and augment the supply of homes affordable to lower-income Californians and to provide leadership on affordable housing finance and policy. Since 1988, the California Housing Partnership has assisted more than 100 nonprofit and local government housing organizations leverage more than $8 billion in private and public financing to create and preserve 30,000 affordable homes.
STATEWIDE POLICY RECOMMENDATIONS

The California Housing Partnership calls on state leaders to take the following actions to provide relief to low-income families struggling with the high cost of housing:

» Invest at least $1 billion from the state’s General Fund surplus into established state programs prioritizing the lowest-income households.

» Expand the California Low Income Housing Tax Credit. (AB 2817)

» Improve the value of the California LIHTC by up to 40% at no cost to the state. (SB 873)

» Give state voters the opportunity to approve a new housing bond similar to SB 879.

» Authorize local governments to use tax increment financing for locally approved affordable housing benefit districts and to issue bonds. (AB 2031)

» Reaffirm cities’ authority to require the inclusion of a percentage of homes affordable to low- and moderate-income households in new rental housing development. (AB 2502)

» Streamline local approvals including environmental review for 100% affordable housing developments consistent with local plans and zoning.

» Create an ongoing, predictable revenue source of at least $500 million annually for the production and preservation of homes affordable to lower-income households.

» Approve the No Place Like Home Initiative to create affordable rental homes for the chronically mentally ill at no cost to the state using a portion of Proposition 63 revenues.

» Allow Community Revitalization and Investment Authorities to use property tax increment available to Enhanced Infrastructure Financing Districts. (SB 975)

LOCAL RECOMMENDATIONS FOR ORANGE COUNTY

Orange County and its cities should:

» Create an Affordable Housing Strategic Plan with specific goals, including the number of affordable rental homes to be developed by each jurisdiction.

» Require that all new residential developments set aside 15% of homes with prices affordable to very low- and low-income families in exchange for concessions and incentives.

» Create “Housing Opportunities Zoning” that allows proposed multifamily home developments that are 100% affordable to be built by-right.

» Create a dedicated local funding source for the development of affordable homes.

» Create an Affordable Housing Land Trust and donate city-owned and surplus sites to the Land Trust for the development of affordable housing.
