**STATEWIDE POLICY RECOMMENDATIONS**

The California Housing Partnership calls on State leaders to take the following actions to provide relief to low income families struggling with the high cost of housing:

» Replace Redevelopment funding for affordable housing with at least $1 billion annually to help local governments meet their State-mandated production goals.

» Expand the State’s Low Income Housing Tax Credit Program by $500 million per year to jump-start affordable housing production and preservation.

» Create a new California capital gains tax credit to preserve existing affordable housing at risk of conversion and to fight displacement pressures in Opportunity Zones.

» Reduce the threshold for voter approval of local funding of affordable housing and infrastructure from 67% to 55% as was done for educational facilities in 2000.

**LOCAL RECOMMENDATIONS FOR YUBA COUNTY**

» Adopt impact fee waivers reductions and/or deferral policies to support the development of affordable homes.

» Encourage for-profit developers to partner with non-profit affordable housing developers to build mixed-income developments to increase income integration of our communities.

» Make the zoning and use permit changes to city- and town-owned property necessary to ensure the feasibility of affordable housing developments.

» Encourage cooperative relationships between cities and counties on affordable housing development that facilitate the sharing of resources and streamline funding and entitlement approval processes.

» Invest in an awareness-building campaign highlighting the importance of affordable housing, the resources to produce and preserve it and how it meets larger planning objectives like housing element goals.
